

Carrying Containers for Full Face Masks

[In case you need a case]

For a better protection of your equipment, MSA offers a wide range of carriers to use in combination with a full face mask and its associated filter[s]. According to your needs and to the mask you are using, you can choose from a selection of hard plastic containers and textile bags.

The **Advantage containers** designed for the Advantage 3000 full face mask series but useable with all the MSA range of masks, provide several new unique features: a special notch and a wall bracket [included] allow the container to be stored on a wall, ready-to-go. The inside of the box is equipped with a slide where an EN 148 threaded filter with its plastic

cap can be inserted, the cover presents two lugs where Advantage bayonet type filters can be attached, and held with a velcro strap.

The **Elite container** or the **3S plastic carrier** allow to carry the mask and its filter or a demand valve permanently attached, so immediately ready to use in case of danger. An additional gasket can makes the container tight for a better storage life of the filter.

The two Textile Carrying bags are a light solution to carry a mask while protected from dust.

In any case, MSA provides the right protection for you and your equipment.

Container Selection Guide

[The optimal solution for all masks]

Container	Part.-No.	Material	3S Range	3S-H-F1 Range	3S-H Range	Ultra Elite Range	Ultra Elite-H-F1 Range	Advantage 3000
Advantage Container	10026179	Plastic	■	■	■	■	■	■
3S Plastic Carrier	D2055709	Plastic	■					
Elite Container	D2056734	Plastic	■ ■			■ ■		■ ■
Carrying Bag Elite	D2055400	Textile [Cordura, PU coated]	■			■		
Carrying Bag 3S-H	D6125067	Textile [Cordura, PU coated]	■ ■	■ ■	■ ■	■ ■	■ ■	■ ■

■ recommended – with filter[s] detached

■ conditional – possible with attached filter[s]
